

## DECLARATION OVER THE EMERGING GENERATION

Father, we declare according to Your Word that in these last days, You will pour out of Your Spirit upon all people, upon the old and the young, upon the fathers and mothers, and upon our sons and daughters. Therefore, we declare a multi-generational revival at Shekinah Revival Ministries, a Holy Ghost outpouring upon both the existing and emerging generations. We decree a special flow of the glory of God and His presence towards the emerging generation, a re-mantling and a raising up of the emerging generation. We declare that our young people are like David and that the Davidic spirit is so upon them that they like David who was not intimidated by Goliath will not be intimidated by the generation and Goliaths of our day. We declare a release of the Holy Ghost strategies that You have promised us to join the generations and build the church generationally. We further decree the prophesied harvest company of young people from our college campuses, high schools, and junior highs, masses and masses of young people and multiplication, multiplication, multiplication, multiplication, multiplication, multiplication.

We also decree an explosion of the anointing and presence of God amongst our children and young people and that Never Enough is a place of destination for other youth ministries to come to and be fed. Father, we decree a new model of youth ministry that hasn't been seen before and we decree that this new model is being birthed right here at Shekinah Revival Ministries. We decree that You are raising up our young people according to the revelatory gifts that You have given them, and You are grooming and equipping them to preach and minister to young people their own age. We declare that Never Enough Church will be fully staffed by our sons and daughters, that they are being mentored and trained by the fathers and mothers of this house. We decree that the youth hall is packed full of kids including those who have returned from ministry school and also those that the devil has taken from us. We decree the emerging generation will run in ways that will grab the attention of a desolate generation, resulting in a season of incredible harvest. In Jesus' Name!
