

Prophetic Word & Exhortation through Dr. Fife – 08 /26/2025

I had a vision as I came in here. And in this vision, I saw a wagon. It was like, it was an old wagon—like you might see in the past to haul grain in—a two-wheeled wagon that you would hitch a horse up to, but there was no horse. And you were the cart. This house was the cart.

And in this cart was this golden, golden wheat. It was full of wheat. A mound—it was mounded up over the wagon of the cart—and it was glowing gold. And I pondered that for a while, and then the Lord said, "It's my glory. It's my glory. It's my glory."

And I thought—I thought it was, it was—you were bringing it to the Lord. You were returning His glory to Him. But now I see that that cart goes both ways, that you carry the glory out. There's a weight, a weight, a weight of glory on this house.

And God's favor—because you have waited on Him, because you have sought Him. And, Fred, I think this is especially for you. The mistake that most leaders make is, they fail to recognize. But they strategized. And the key is, don't strategize. Recognize. And that's who you are, Apostle. You recognize, you see. You don't, you don't go into the place and say, "Give me a strategy." That strategy comes first out of recognition. And I believe the secret of the blessing of this house is recognizing. Recognizing, "Lord, what are you saying?" It's like coming in without an agenda and saying, "Lord, speak to us. We're in Your glory. What is it You want?" And going out from the secret place, carrying the glory of His wisdom because you've recognized what He wants.

"As many as are led by the Spirit of God, they are the sons of God," and you are Spirit-led. Presence-based. We go so many places trying to teach people how to govern out of presence, how to live out of presence, how to live life out of presence. How much more important is it for us as a leadership? As Apostles and Prophets, they lived out of presence. They walked out of presence, in His presence, in His presence. Sometimes in a trance, sometimes caught up into the heavenly. It's like you said, Apostle: don't mess this up, don't mess this up. I mean, the quickest way to mess this up is not to recognize, but to realize it's the glory of God. I mean, you sense it when you walk into this place. It's abiding, it's abiding.

And the weight, the weight—and the cart—is a corporate weight. I think it's a corporate weight upon you, the leadership, and the chief Apostle. I receive the words that you have brought to me. They're from the throne, they're from the throne, they're from the throne. These are not idle words, spoken by men. These are the words of the Lord I receive.

And I go from here wondering what God is going to do. Because when the Lord first spoke to me, He said there were four books in me. Four golden scrolls that would be drawn up from the well of His presence. And in each of those seasons, there were like these four seasons. And the first three were similar—no, the first two were similar—but the second two were different.

And in a dream, in a dream, the Lord showed me this sea, the solid blue water. Oh, my. I got to write this down. But in the dream, I saw floating on the surface, it was like a circle. And the circle was pure white, and the sky, of course, was with different colors than the ocean. And in the circle, it was kind of divided in half. And the number two was in one half and the number two was in the other half.

And I kept hearing the word repeating over and over: "True blue. True blue. True blue." And I would repeat in my dream, "No, no, no, no—two, two. It's not true blue. It's two two."

So in the morning, as I was processing the dream, the Holy Spirit spoke to me and said, "This is what you have drawn up from the well of My presence. And it is true blue, which means it's authentic. It's real." And He had already released to me several of the books. And the first two, if you recognize *The Secret Place* and *The Hidden Kingdom*, are so sequential. You see, you see their connection. And the second two, which are *Spirit Wind* and *Pneuma*, which are divinely connected, but so different from the first two. And all along, I've been thinking, "Lord, there must be a seventh book. I've written six, but some of the books that I've written, like—which I believe are instruction manuals for the church—*The Lightgiver* is one, and *The Imagination Master*. *Imagination Master* is a revelation, and both of these two are part revelation, part teaching, which I think are equipping books. *Imagination Master* has to do with creativity and the release of creativity, releasing your creativity. It's titled *The Imagination Master*. And you were saying, in His presence, the depth of His presence, creativity is released.

So I've wondered, I've wondered. And there is a book working in me now, which I think I've shared with you, about *Lessons from Captain Desloge*. But that is another teaching book. But in this moment, He gave me the seed of this seventh book. And you have no idea. I mean, it's like, I'm leaving here pregnant. And I will return to sit in this place at an old desk. I might even bring my picture with me. It's almost something like that. But it was comfortable, and it was—and I usually write into a journal, handwrite. I think this is a different place. It's something a little more, a little more. Because this word is deep. It's deep.
